

## **ABOUT FLAMMABLE PRODUCTS**

### **All employees and students have a responsibility to:**

- Know the safety rules that regulate work at your workplace.
- Know the rules regarding the use and storage of flammable goods.
- Report incidents and errors that might pose a risk or cause injury.
- Know where emergency exits are located and the importance of always keeping them free from obstacles.
- Know where fire extinguishers are located and how these are handled.
- Know what kind of alarms there are within the workplace.

For questions, contact your head of department or Madeleine Blomqvist (person responsible for flammable products), Oral biology, [madeleine.blomqvist@mau.se](mailto:madeleine.blomqvist@mau.se)
